

## Deliver Every Exciting Moment Seamlessly with Astound Video Transport

Today's media businesses need a reliable bandwidth solution with flexible provisioning to meet the changing market requirements for media network implementations.

Astound Business Solutions, Powered by RCN | Grande | Wave offers a video transport solution that provides multiple options to support the expansion of media delivery services. The solution is a scalable, private network designed to be ready for the paradigm shifts in video consumption. It offers a dedicated, high-bandwidth implementation over standards-based Ethernet and DWDM network solutions.

### Key Benefits and Results:

**Support a Variety of Media Services**  
Native uncompressed and compressed video and audio services.

**Flexibility**  
Service terms that meet the unique need of the Broadcast community, including temporary services for special events.

**Reliability**  
Fast service provisioning and network resiliency supporting mission-critical events.

**High Quality of Service**  
Low latency and efficient use of bandwidth to support the higher demands and increasing bandwidth usage of today's video services.

**Seamless Integration**  
Secure, open-source technologies eliminate the risk of being locked into a proprietary solution and allows for seamless integration with your existing publishing and delivery workflows.

## Get the Big Picture with Astound's Reliable, Industry Leading Technology.

Our fully-managed and monitored video infrastructure supports everything from low MB streaming to 1080P/4K over the Astound Business fiber-rich network. Our video transport solution provides multiple options to support network expansion whether it is through cloud-based data centers or full-time distribution platforms. The solution ensures the stable transport of pristine video streams with little latency, delay or jitter at market competitive rates.

### Why Choose Astound Business Solutions:

We are a national fiber solutions provider dedicated to delivering reliable and secure connectivity to mission-critical applications, along with best-in-class support. We're in eight of the top 10 metro markets throughout the United States. With over 30,000 route miles servicing more than 14,000 on-net buildings, we cover 12 states and more than 20 metro areas to help give you the connectivity solutions you need.

**Fiber-Rich Network Delivers Superior Uptime** - We operate a sophisticated network with a backbone featuring a smaller node size and robust fiber capacity.

**Award Winning Customer Service** - You can rest assured the person on the other end of the support call understands your business, local market, and urgency to solve your concern. We are dedicated to minimizing any impact on your business.

**Custom, Robust Solutions** - We take a consultative approach by first understanding your distinctive needs to deliver a unique solution designed especially for you.

**Speed to Market** - Unlike larger competitors, we focus on rapid installations and upgrades, and do not rely on third parties to meet deadlines.
